ENVOYS TAKE UP TROUBLE BETWEEN HUERTA AND U. S.

**Carranza's Refusal Will Not
Deter Them In Their Me-
diation Efforts]**

MASSACRE FEARED IN MANZANILLO

**Americans Horribly Treated
and the Ambassadors
Interfere**

WASHINGTON, May 4.—Despite the refusal yesterday of Carranza, Constitutionalists chief, to declare an armistice with the Huerta government, the South American envoys today resumed their sessions, still hopeful that events of the next three or four days would broaden the horizon of their negotiations to include the entire Mexican problem.

Carranza, declining the suggestion of a truce, asserted a suspension of hostilities "would only accrue to the benefit of Huerta in the civil war now going on in Mexico between the Usurper Huerta and the Constitutional Army under my command."

With the rebel chief's reply in hand, the envoys proceeded to their task of attempting to settle issues between Huerta and the Washington government. Hope that Carranza's followers eventually might be brought into the proceedings was based on a prospect for appointment of delegates of all parties in the dispute to meet with the mediators.

First response to the envoys' request for the naming of delegates was seen here in some quarters in the ordering of Joaquin D. Cassasus, former Mexican Ambassador to the United States, from Carlsbad to Washington. While the nature of his mission was not announced, yet it was believed he had been chosen to act for Huerta in the proposed conferences. If Carranza were to name a delegate, hope was expressed that the mediators might reach the broad field of negotiations at which they aim.

Mexico City rumors heard in Vera Cruz stated suggestions were circulating in the capital that Huerta might resign and a Provisional President be appointed with whom Carranza might consent to treat with the object of facilitating mediation. Such reports were received here without comment.

MEXICAN SHIP BLOWN UP.

MEXICO CITY, May 4.—A dispatch said to come from Manzanillo, on the Pacific coast, announced that the Mexican steamer Luella was sunk in the harbor by the explosion of a mine which had been planted for the United States protected cruiser Raleigh. No loss of life was mentioned. The steamer belonged to the Pacific Railway Company.

FEAR VIOLENCE.

WASHINGTON, May 4.—American Consul Stadden, of Manzanillo, who arrived at San Diego, Cal., Saturday, aboard the German steamer Marie with 259 refugees, reported to the State Department that Mexicans on the day of his departure had taken American flags from the consulate, tamped up on them and burned them. He and his fellow Americans had been given forty-eight hours to leave Mexico, dating from April 22.

Adolph Steff, the Norwegian Consul at Manzanillo, was forced to flee to save his life, boarded the Marie as a refugee after placing the archives of the consulate on the steamer Leonora, a Mexican vessel, but owned in San Francisco.

Consul Stadden said that the treatment given the Americans was "horrible." Had it not been for the good offices of the British and German Consuls, he said, many Americans in the Colima district would have been "slaughtered." Some Americans arriving at Manzanillo from the interior were forced to pay 1,000 pesos each to the military authorities. The Consul praised the efforts of the skipper of the Marie, Capt. J. Davidson, to protect American citizens. Consul Stadden added that after April 22 he was not allowed to use the telegraph.

I don't blame the girl a bit. What's the use of having a good figure if you have to cover it up when you go out?

ATTENTION, EPWORTH LEAGUE!

The regular monthly business session of the Paris Epworth League will be held Thursday night at 7:15 o'clock, at the Methodist Church. It is especially urged that every member be present at this meeting as Conference Committee will be appointed and various plans arranged for the entertainment of Kentucky Epworth League Conference in June.

GASOLINE LIGHT TANK IGNITES CAUSING FIRE

The saloon of Bud Macon, colored, on Main street, was badly damaged by fire Friday afternoon about four o'clock. The fire was caused by gasoline in a lighting tank taking fire and exploding. The machine was undergoing repairs when a spark was communicated to the gasoline and in an instant the entire room was enveloped in flames. Employees were compelled to flee from the building.

An alarm of fire was sent in and when the department arrived on the scene the blaze had gained considerable headway. Considerable difficulty was experienced in getting into the building in the face of the stubborn blaze, but with a good water pressure the flames were soon under control.

The building, owned by the Coughlin heirs, was damaged to the extent of several hundred dollars, fully covered by insurance. Macon had been conducting a saloon in the building, but retired May 1, and having moved a portion of his bar fixtures, had installed four pool tables. The tables together with a considerable stock of liquors, were ruined by fire and water. His loss will reach several hundred dollars and he carried no insurance. Stored on the second floor of the building was a quantity of lodge paraphernalia, owned by colored people; and this also was badly damaged.

PROGRESS OF FARMERS IS RETARDED BY HEAVY RAINS

The heavy rains of early yesterday and last night will have the effect of retarding the progress of the farmers of Bourbon in their spring seeding. The backward season has greatly hindered the farmers in their early planting, but most of them have taken advantage of the most favorable weather conditions and in preparing their ground have pushed the seeding with all haste. A large acreage last week was planted in corn.

Tobacco plants are looking well and the condition is such as will permit transplanting about the middle of May. A larger acreage will be planted than in several years and with a favorable season a record breaking crop is expected. It is the intention of many that the crop this year will be larger than that of 1910.

The fruit crop is very promising, as the buds were not affected by the late frost which accompanied the cool weather about a week ago. Gardens are looking well. It is thought that nothing injured during the chilly nights the first of the week.

PRISONERS WILL GET BACK PAY FOR SERVICES

Prisoners in the Kentucky penitentiary will receive back pay for their services under the prison labor contract law from June 15, 1910, when the law allowing them compensation became operative, until August 15, 1912, when they were first allowed compensation. Judge Stout, in the Franklin Circuit Court, decided in favor of the prisoners in a suit brought in their behalf against the board.

The amount involved is about \$100,000, estimating on the present basis of pay, which aggregates about \$50,000 yearly.

MASONIC LODGE BUYS ELKS' HOME FOR \$15,450

**Master Commissioner Sells
Valuable Property to Satisfy
Bondholders**

WILL MAKE SOME IMPROVEMENTS

**Purchasers Will Get Possession
When Court Confirms Sale**

Auctioneer M. F. Kenney sold yesterday at the court house door in this city for Master Commissioner C. A. McMillan the Elks' Building located on the corner of Main and Bank Row to the Masonic Lodge of this city. The price paid was \$15,450.

The sale of the building was the result of a foreclosure of the bondholders in the building, a decree of court having been obtained to satisfy a claim to an amount of \$12,000 in the preferred bonds. Mr. Charles Stephens represented the Masonic lodge, while R. K. McCarney, representing several members of the lodge was a contending bidder.

The Elks' building, which is a four-story structure, was completed in the year 1903 at a cost of \$35,000. It is a handsome and imposing structure, containing a large number of office suites on the second floor, storerooms on the first floor, while the third floor was occupied as club rooms and the fourth floor the lodge room. The sale of the property will be confirmed at the term of Circuit Court to be held in June, when the building will pass into the ownership of the local Masonic Lodge.

Extensive improvements are planned, which will give a larger number of office rooms.

LARGE HOUSE ON EIGHTH STREET DESTROYED BY FIRE

The large frame building on West Eighth street, near Lylesville, belonging to Mollie Warren, colored, was destroyed by fire at an early hour Friday morning, entailing a loss of about \$1,200, only a portion of which was covered by insurance. The building was under a lease to Steve Moore, colored, the undertaker, and contained two buggies, a "dead wagon," 10 caskets, a lot of harness and one horse. Everything in the building burned with the exception of the horse, which was taken from the adjoining building. Moore's loss will reach about \$800, with \$500 insurance.

"GO TO SUNDAY SCHOOL SUNDAY" OBSERVED HERE

"Go to Sunday School Sunday" May 3, set aside by Governor McCreary in a proclamation, was enthusiastically observed in this city. The attendance, it is estimated reached the 1,000 mark, and included a large number who were wholly unaccustomed to attending Sunday school.

At the Presbyterian church the attendance was 135, and after the class exercises, Rev. Dr. B. M. Shive, the pastor of the church, delivered an excellent sermon which was both interesting and instructive.

At the Methodist church the Sunday school room was packed, many being forced to stand. The total class enrollment was 233, among the number being many who accepted the invitation to become permanent members. At the Christian church 465 were in attendance 106 of whom were in the woman's class, taught by Mrs. T. A. Hendricks, and 86 in the men's class, taught by Prof. T. A. Hendricks. Rev. W. E. Ellis, the pastor of the church, preached a strong sermon following the Sunday school, in which he made an irresistible appeal to the adults for a more regular attendance, and which is sure to have fine results.

Altogether, the morning was a notable one in Sunday school circles and much good is certain to follow the efforts for universal attendance, both at Sunday school and church.

"BLOOD IS THICKER THAN WATER"

Without good blood a man has a weak heart and poor nerves. Thinness of the blood, or anemia, is common in young folks as well as old. Especially is it the case with those who work in ill-ventilated factories—or those who are shut up indoors in winter time with a coal stove burning up the oxygen or emitting carbonic (acid) gas. This blood, or blood which lacks the red blood corpuscles, is anemic or pale may have been caused by lack of good fresh air breathed into lungs, or by over-exhaustion or overwork. Sometimes people suffer intense pain over the head which is not head disease at all, but caused by indigestion. Whatever the cause, there's just one remedy that you can turn to—knowing that it has given satisfaction for over 40 years.

WHY WEAK LUNGS?

The toll of tuberculosis is claiming more than 350 victims every day in the United States, yet few realize their grave condition until the critical period arrives. Overwork, worry, weakness after sickness, catarrh, bronchitis, tender throats—all exert the weakening influence that invites consumption. To guard against consumption, thousands of people take Scott's Emulsion after meals because its rich medicinal nourishment strengthens the lungs, puts vigor in the blood, and upbuilds strength to resist tuberculosis. Scott's Emulsion is nature's strength-builder. Refuse substitutes.

HAZEL DAWN A FAVORITE IN HER NEW HOME

The following extract from the Lucena, a Cuban-American paper published at Havana, when describing the Live Stock Fair at Havana, speaks of Hazel Dawn as follows:

"When Hazel Dawn appeared she had hardly stuck her nose through the croton hedge when everyone realized that Hazel Dawn was the last word in horseflesh. There are no words to describe the magnificent animal. Graceful as a gazelle, swift as an arrow, as intelligent as a school marm and as faithful and loveable as a mother, Hazel Dawn needs only to be seen and the show is a success to the beholder. There were other nice horses, but there is but one Hazel Dawn in the world—and she will never leave Cuba if the Government has to pass another \$10,000,000 loan."

NEW AUTOMOBILE LAW IS VERY STRINGENT

The new automobile statute is much more stringent than the old one. In addition to fines ranging from \$10 to \$50, it imposes imprisonment in the county jail for terms of five to thirty days, in the discretion of the court and jury. The maximum speed limit is twenty miles an hour. In the residence sections of incorporated cities and towns the speed must not exceed fifteen miles, and in the business section it must be reduced to ten miles. The registration number must be displayed in the specified position and must not be illegible from dust or mud.

LAW AS TO DYING STATEMENTS VERIFIED

The courts must be careful about admitting dying declarations in evidence against a person accused of murder, says the Court of Appeals, in a recent decision, certifying the law in the case of the Commonwealth against Noah Johnson, under indictment in Laurel county for the alleged murder of Thomas Doby. On Johnson's first trial, in which the jury failed to agree, the dying declaration of Doby was allowed to go to the jury and then after a doctor had testified that he had told Doby before the declaration that the wound probably was not serious, the jury was cautioned not to consider the declaration.

Doby and a friend were passing the place where Johnson was fixing a fence. Johnson and Doby quarreled and Doby was killed. The friend had fled and Johnson was the only eyewitness. To Bud Sullivan, who was attracted to the scene by a shot and who helped Doby home, the latter said that he was going to die. He died twenty-four hours later, but about eighteen hours after he was shot he made the declaration used against Johnson before a Notary Public. In the meantime, however, the physician had assured Doby his wound probably was not serious, and the court held it doubtful whether the declaration was made under the circumstances that render such declaration admissible in evidence against the accused.

STATE TO BE REPRESENTED AT PANAMA-PACIFIC SHOW

State Senator Starling Marshall, of Henderson, who fathered the defeated \$50,000 Panama-Pacific Exposition appropriation in the Senate, and former Representative John Holland, of Shelbyville, who were commissioners to select the site for the Kentucky building on the exposition grounds, conferred with Governor McCreary, who said he would appoint another commissioner soon to succeed former Senator Herman Newcomb.

Mr. Holland said after a conference with the Governor, at which Mason P. Brown, a director of the Exposition, and James Guthrie, of Washington, also were present, that Kentucky will be represented by exhibits in every department at the Exposition. Agricultural, mining, manufacturing, educational, historical, forestry and various other representative exhibits will be prepared under direction of the commissioners.

ARE YOUR KIDNEYS WELL?

Many Paris People Know the Importance of Healthy Kidneys.

The kidneys filter the blood. They work night and day. Weak kidneys remove impurities. Weak kidneys allow impurities to multiply. No kidney ill should be neglected. There is possible danger in delay. If you have backache or urinary troubles, if you are nervous, dizzy or worn out, Begin treating your kidneys at once.

Use a proven kidney remedy. None endorsed like Doan's Kidney Pills. Recommended by thousands. Proved by Winchester testimony. A. G. McCauley, 134 S. Maple St., Winchester, Ky., says: "I had pains through my kidneys and the kidney secretions were scanty and painful in passage. On the recommendation of a friend I got a box of Doan's Kidney Pills, and the result of their use convinced me of their merit. I now gladly confirm what I said about them before."

The above is not an isolated case. Mr. McCauley is only one of many in this vicinity who have gratefully endorsed Doan's. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. McCauley had. 50c. all stores. Foster-Milburn Co., Props. FORMER PARIS MINISTER IS INDICTED FOR LAND SCHEME

The Louisville Times of Tuesday evening contained the following: "On a charge of using the United States mails to defraud while vice-president of a Texas land company, the Rev. G. W. Argabrite, pastor of the Franklin-street Baptist church, 1032 Washington street, this city, was arrested by a Deputy United States Marshal March 26. He gave bond in the sum of \$2,000 to appear for trial at Corpus Christi, Tex., May 25.

"The arrest was made on request of the United States Marshal at Corpus Christi, and on the authority of an indictment returned by a Federal grand jury in that city charging Mr. Argabrite, as vice-president; A. D. Powers, president; R. Downing, secretary, and E. A. Luck, director of publicity sales, of the Gulf Coast Immigration Company, of Aransas county, Tex., with setting up and operating a scheme to defraud and using the United States mails as a means therefor.

"The defendants in the indictment are charged with entering into an agreement with Charles G. Johnson, trustee of certain lands at Rockport, Aransas county, Texas, to pay him a percentage of the sales of the land which had been subdivided into lots and acre plots. Literature describing the land as 'exceptionally productive, having large vineyards and bearing garden vegetables in abundance,' and containing statements that Rockport is situated on a deep water harbor on which the Government intends to expend large sums, and that the town is on a railroad, was circulated through the mails, according to the indictment, 'when,' the indictment reads, 'in truth and in fact the said tracts and parcels of lands were not in cultivation and not producing grapes, etc.' It is further charged in the indictment that there is no railroad running into Rockport and that there is no deep water harbor in the vicinity of the town, and that money secured by the defendants named in the indictment was not divided as per agreement with the trustee of the land.

"When Mr. Argabrite was arrested here and taken before United States Commissioner John P. Haswell he said he had no knowledge of the meth pursued by the company to sell the property; that he was innocent of any wrong intention, and that his name was used by the concern without his authority."

Rev. Argabrite was formerly pastor of the Paris Baptist church, and was a resident of this city for several years. He has a number of friends in this city who will regret to hear of his trouble.

"Married life gets a whole lot of knocks, but you may have noticed that 99 per cent. of those who advertise for husbands and wives are widows and widowers.

The trouble with the Self-Made man is that he is usually equipped with a Self-Starter and forgets all about a Muffler.

State of Ohio, City of Toledo, Lucas county ss. Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

DESIRABLE
MODERN DWELLING,
Also 2 Nice Building Lots.

Having decided to move to another State, I will sell at public auction, on Thursday, May 7th, 1914.

beginning at 2 o'clock, p. m., on the premises, my frame dwelling house on Cypress street.

The house contains eight large rooms, with complete bath room, pantry, plenty of presses, gas for cooking in the kitchen, electric lights throughout the house, which is equipped with handsome electric fixtures. The house stands on an excellent concrete foundation, and the building is one of the best constructed homes in Paris. The lot has a frontage of about 73 feet on Cypress street, and runs back about 210 feet to an alley. On the rear of the lot is a well built stable, chicken house and chicken yard.

At the same time and place I will also sell the vacant building lot adjoining the residence. This lot has a frontage on Cypress street of about 56 feet, and runs back a distance of about 202 feet to an alley. There is an excellent eastern on this lot, which is one of the most desirable building sites in Paris. The inside concrete walk is already built.

Also, the building lot located on the north side of the dwelling, fronting about 73 feet on Cypress street, and running back to an alley, a distance of about 170 feet.

TERMS—Easy, and made known on day of sale.

HEAT AND HUMIDITY WORST FOE IN MEXICO

Should the armed forces of the United States be ordered to invade the interior of Mexico they will face a foe more persistent than armed soldiery, a foe which carries pestilence and quick death in its wake. This foe will be the heat.

The mean temperature of Mexico City is 9 degrees higher than the mean temperature of Philadelphia. In June, July and August the mean temperature in Mexico will be 85 degrees. During the same months in Philadelphia the temperature will not reach more than 76 degrees on an average.

Contrasted with the coast city of Vera Cruz, Mexico City is comparatively dry. At Vera Cruz the annual rainfall is about 100 inches, while at Mexico City not more than thirty inches fall annually. The humidity at Vera Cruz is, consequently, greater than at Mexico City, but the heat during the summer months at the latter point is terribly oppressive.

"Should American soldiers invade interior Mexico," said Forecaster Bliss recently, "they will undoubtedly find the heat their worst foe. Before Northern men can live in Mexico with comfort they must become acclimated. Although the temperature does not advance more than 9 degrees above our mean temperature, the heat conditions in Mexico differ from those in Philadelphia and other Northern cities, by reason of the fact that a warm spell in this climate never lasts more than five or six days at the utmost. In Mexico a mean average temperature of 85 degrees is usual and, therefore, residents of the North, who have been accustomed to a variable climate, will find themselves had pressed if forced to remain in Mexico for any length of time."

Along the coast of Mexico, especially at Vera Cruz, the humidity is terribly oppressive. Inland the humidity decreases, but the heat increases. Trained soldiers of the regular army, accustomed to camp would be able to withstand the barometric conditions of the coast and the heat of the sun, but the members of the National Guard of the various States would be undoubtedly had pressed if ordered on long inland marches in Mexico.—[Philadelphia Public Ledger.]

CRIMSON CLOVER USEFUL CROP

New Bulletin of the Department of Agriculture Describes Its Value as Early Pasture and Soil Improver.

WASHINGTON, D. C., April 29.—A number of ways in which the early appearance of crimson clover in the spring can be turned to the farmer's advantage are pointed out in a new publication of the United States Department of Agriculture, Farmers' Bulletin 579, "Crimson Clover Utilization." In the Southern and Central Atlantic States this crop is of particular value. Generally speaking it suffers from the severe winters in the North and from too great dryness West of the Mississippi. In Florida also it has proved less successful than elsewhere.

Crimson clover, says the bulletin, has two great advantages. It is an excellent fertilizer and it can be used for pasture and hay before any other green growth is available, the land being then sown with ordinary summer-grown crop. The clover itself can be sown toward the end of the summer on land where such late crops as corn or tomatoes are still under cultivation. Its use, therefore, does not interfere with other products and its benefits cost little but the labor and seed involved.

To obtain the full value of crimson clover as a fertilizer the entire green crop should be plowed under, thus adding to the soil a large quantity of nitrogen and humus, or decayed vegetable matter. The poorer the land the greater is the benefit that the succeeding crop derives from this process. A yield of 30 bushels of corn per acre may ordinarily be increased by crimson clover to 45, but on richer land an increase of more than 10 bushels is uncommon. A convenient method of calculation is to consider a full crop of crimson clover, weighing with roots and tops, about 10 tons per acre. In this way the soil is greatly enriched each year without interfering in any way with the regular money crops, such as corn, cotton or tomatoes.

It is, however, by no means necessary to sacrifice the entire crop of crimson clover to fertilizing purposes. Excellent results can be obtained by ploughing under merely the roots and stubble. This it is estimated returns to the soil 40 per cent. as much nitrogen as the green crop. When this is done the clover itself can be used either for pasture, before ordinary grass is sufficiently far advanced to be available, or for hay which can be gathered in time to leave the land for another crop.

Crimson clover intended for hay must, however, be cut at the right moment, when the most advanced heads are beginning to show faded flowers at their base. At this stage the plants contain the maximum amount of protein and dry matter, while the leaves are still present and the stems comparatively green. If the harvest is put off, the short hairs on the stems and flower heads become dry and stiff. In this stage there is danger that they may form hard dry hair balls in the intestinal tracts of the horses and mules to which the hay is fed. These hair balls, solid, compact felt-like structures, nearly always cause death. Early cutting, however, and judicious mixing with other hay will obviate this difficulty to a great extent, and under any circumstances, cattle are rarely affected. By dairymen, crimson clover hay is considered a roughage feed fully equal if not superior to either red or alsike clover.

For early pasturing crimson clover is even more satisfactory, its chief drawback being the limited period in which it can be utilized for this purpose. This period, however, is ample to enable the ordinary grass pastures to attain a growth which will greatly increase their carrying capacity later in the season. After the cattle are removed, the uncut plants and the manure left behind are ploughed under, the manure of course, forming a valuable addition to the fertilizing effect of the clover.

As a pasture, hay or fertilizer, therefore, crimson clover offers itself to farmers at the time when the ordinary summer-grown crops are not available. Incidentally, it should be said, this clover is valuable for poultry. A tubful of hand-cropped leaves thrown into the poultry yard will provide the chickens with the best possible green food at a season when eggs are ordinarily high and every thing that promotes laying is most welcome. Small patches of crimson clover are, in fact, grown by poultry raisers for this purpose alone.

Methods of growing the crop, the preparation of the seed bed, and the soils and selections best adapted to the purpose are discussed in a previous publication of the Department of Agriculture, Farmers' Bulletin 550, "Crimson Clover; Utilization," will be sent free on request.

NINE DISTRICTS WILL GIVE BECKHAM A LARGE MAJORITY

A dispatch from Frankfort to the Louisville Post says:

"During the past week many prominent Democrats from all sections of Kentucky have been in Frankfort. They came for business, pleasure and political reasons, but all discussed the Senatorial primary and told of conditions in their respective counties and districts.

"With few exceptions they all said Gov. Beckham was in the lead, and the indications were that he would win by a very large majority.

"One very prominent leader from the Eighth district said that things were in fine shape there, and that he would wager that Gov. Beckham would carry every county in the Eighth district, Madison included.

"Another Democrat, and a man well versed in politics, from the Second district, said that it would not surprise him to see Gov. Beckham carry the Second district by a small majority. He said the sentiment for Gov. Beckham was growing every day in that district, and that several bets had been made by Beckham followers that he would carry the district.

"It seems to be conceded by all well-posted politicians that Gov. Beckham will carry nine districts.

"Gov. Beckham has received word from Danville, Boyle county, that his friends have called a meeting for Saturday afternoon to organize a 'Boyle County Beckham Club.' The meeting will be held in the court house at 1 o'clock, and after the organization several speeches will be made. The members of the club will set to work at once to organize the county for Gov. Beckham and give him an overwhelming majority at the August primary.

"Danville is the home of one of the four supposed Democrats who voted for W. O. Bradley and bolted Beckham in the legislative session of 1908. The good Democrats of that county are determined to show the rest of the State that they do not approve of the action of their representative in voting against Gov. Beckham, then the nominee of his party for United States Senator.

"This is only one of the many Beckham clubs that are being organized in different parts of the State."

WORK DONE BY QUAIL WOULD SAVE MILLIONS.

In the current issue of the Farm and Fireside a contributor says that the chinch bug costs the farmers of the United States at least \$100,000,000 a year. Various means for fighting these bugs have been devised but their most successful enemies are the birds of the air. In regard to the natural destroyers of the insect pest the author of the article writes as follows:

"If the law of the survival of the fittest applies in all cases, it is reasonable to believe that the ultimate check to the propagation of the chinch bug will come about by the birds that eat them at all stages of their life history. Among the birds that eat millions of these pests may be mentioned the quail, the meadow lark and the sparrow.

"If the chinch bug is to be practically eradicated we must depend upon the efforts of the quail, as his home is in the brooding grounds of the chinch bug. Nowadays things that are done have a certain degree of the idea of permanency about them, hence the first step in the permanent destruction of the chinch bug is a more complete protection of the quail that assists also in lowering the losses caused by the cotton weevil, the grasshopper and the potato bug."

SMOTHERING SPELLS

Sour Stomach, Heart Burn

In October, 1910, we received a letter from Mrs. Hall, from which we make the following extracts:

MRS. JAMES A. HALL,
Box 36, Norris City,
Illinois.

"About twelve years ago my health began to fail. I couldn't eat anything without suffering for it. I had heart burn, sour stomach, palpitation of the heart, smothering spells, pains in my sides and back. In fact, I suffered all over, and a cough almost like consumption. Doctors failed to relieve me; in fact, they didn't seem to know what ailed me. I continued to grow worse until I was able to sit up only a part of the time. I had almost lost all hopes of ever being any better."

"But one day some one threw some books in at my door. I read them and found them to be Peruna books. They described my feeling so truly I sent at once and got a bottle and began taking it. You pronounced my ailment systemic catarrh, and gave me some advice."

"When I had taken two and one-half bottles I began to eat without suffering. I continued to improve."

"When I had taken eight I was like a new person. That was nine years ago."

"I think Peruna the greatest family remedy there is, for so many ailments are due to catarrhal trouble. I would advise any one afflicted with catarrh to take Peruna and I am sure it will leave."

"In the Revised 'Tills of Life' we have many similar testimonials which should interest sick people everywhere. Sent free by the Peruna Co., Columbus, Ohio."

People who object to liquid medicines can now obtain Peruna Tablets.

HEALTH BOARD LAYS DOWN RULES FOR CONSUMPTIVES

Acting under the law of 1912, the New Jersey State Board of Health has issued the following rules, which are to be followed by all consumptives in that State:

1. All persons suffering from pulmonary tuberculosis (consumption) shall effectively destroy their sputum (spit).

2. All persons suffering from running sores due to any form of tuberculosis shall burn all soiled dressings immediately after removal.

3. The room occupied by a tuberculosis patient shall have at least one outside window.

4. No person suffering from pulmonary or other communicable form of tuberculosis shall handle food designed for the use of others except when necessary in the performance of their household duties, unless the food be wrapped in such a way as to protect it from contamination, or unless some necessary subsequent process of preparation, such as cooking, will sterilize it and prevent it carrying infection to the consumer.

5. The manufacture of any kind of goods for commercial purposes or the performance of any work known as "shop work" in the home of any person suffering from pulmonary or other communicable form of tuberculosis, is prohibited, unless sterilization is done in strict accordance with the requirements of the local Board of Health.

CHAMBERLAIN'S LINIMENT.

This preparation is intended especially for rheumatism, lame back, sprains and like ailments. It is a favorite with people who are well acquainted with its splendid qualities. Mrs. Charles Tanner, Wabash, Ind., says of it: "I have found Chamberlain's Liniment the best thing for lame back and sprains that I have ever used. It works like a charm and relieves pain and soreness. It has been used by others of my family as well as myself for upwards of twenty years." 25 and 50 cent bottles. For sale by all dealers.

News Over the State

Mining Station for Kentucky

Washington—The State of Kentucky will secure a mine rescue station and in all probability it will be located in the Eleventh Congressional District. Some time ago Representative Caleb Powers introduced a bill to establish mine rescue stations at a cost of \$26,500 each at Pineville and Harlan, in the heart of the Kentucky mining region. The Department of the Interior submitted a report recommending that one of these bills pass, but not attempting to specify which one. Powers had a conference with Representative Foster, chairman of the House Committee on Mines and Mining, who stated that the committee will soon bring in a bill providing for the establishment of about fifteen of these stations throughout the country, leaving the exact location to be selected by the Interior Department. Kentucky will get one of these stations.

Greene-Glenn Bill Operated.

Covington—The operation of the Greene-Glenn fire insurance bill, passed by the Kentucky General Assembly, was discussed at the nineteenth annual meeting of the Kentucky State League of Local Building Associations. A resolution presented for the appointment of a committee to protest to the Governor regarding the bill was adopted. The committee appointed to go to Frankfort includes Charles A. Baker, of Louisville. The next meeting will be held in Louisville. Officers elected were: Charles Eugene Clark, of Covington president; Thomas A. Baker, of Louisville, vice-president; H. A. Schroetter, of Covington, secretary.

Gifts for State Building.

Lexington—It was stated here that James B. Haggins and J. N. Camden had come to the rescue of Kentucky, which was left without a building at the Panama-Pacific Exposition by the refusal of the Legislature to make an appropriation for that purpose. Mr. Haggins and Mr. Camden, it is said, subscribed \$5,000 each, and as smaller subscriptions have already brought the total amount up to \$17,500, it is believed there is no longer doubt of a suitable building being constructed and a proper representation made of the State's resources at the Exposition.

Fortune for a Leg.

Frankfort—The neat sum of \$15,000 for a leg is the amount a Franklin county jury awarded J. A. Johnson, of Winchester, for his right leg, cut off here last fall by a C. & O. railroad train. Johnson fell while getting on the train and rolled under it.

Verdict of \$5,000

Winchester—The jury in the case of Mrs. Mary E. Haggard against the L. & N. for \$25,000 damages for alleged negligence in connection with the death of her son, Wheeler Haggard, who was killed by a train at Lexington, gave her a verdict for \$5,000. The trial consumed two days.

New Tobacco Factory at Glasgow.

Glasgow—Ray Moore, tobacco buyer on the breaks here for L. W. Burford, of Louisville, and Powell Barlow, of Glasgow, has let the contract for the erection of a large tobacco factory. The new enterprise will be located near the Farmers' Loose Leaf market, and will be completed by July 1, in time for the season. Mr. Barlow is the present manager of the Farmers' Loose Leaf Tobacco Warehouse, and both he and Mr. Moore are experienced tobacco men.

Bleeds to Death.

Winchester—Mary Elizabeth Webb, four-year-old daughter of Eliza Webb, bled to death here. Her nose began to bleed several hours before death, and the flow could not be checked.

Methodists Meet.

Mt. Sterling—The Lexington District Conference of the Methodist church closed an interesting session here Friday. Reports from churches and Epworth Leagues show them to be in excellent condition. Special sermons were delivered by visiting ministers, and interesting discussions were held on various topics. Rev. J. R. Deering, of Lexington, presided.

Bid For Text Books.

FRANKFORT—Bids for the adoption of uniform text books will be opened by the State Text Book Commission in this city May 27. This was decided upon by the commission after it organized, the members taking the oath of office before a notary public. In order to correct a defect in the law Barksdale Hamlett, Superintendent of Public Instruction, was elected secretary.

The commission authorized the secretary to advertise in several newspapers and to notify all publishing houses that bids on the State adoption of text books would be opened on May 27.

The commission is hoping for a construction of the law by the Court of Appeals by May 10, in order that it will know how to proceed. It is the intention of the commission to make the State adoption as soon after May 27 as possible.

The commission is composed of Gov. Jas. B. McCreary, ex-officio chairman; Prof. Henry S. Barker, of State University; Lexington; Prof. J. R. Johnson, of the Eastern Normal School, Richmond; Prof. A. C. Burton, of the Western Normal School, Bowling Green; L. C. Foster, Hopkinsville; A. H. Hill, Franklin; L. C. Gregg, Shelbyville; Felix H. Kerrick, of Lyndon; L. D. Strucker, Frankfort; A. C. Collins, Covington; and J. E. Lanter, Winchester; Barksdale Hamlett, State Superintendent of Public Instruction, secretary.

STOCK AND FARM NOTES

"Blue Grass," writing in the Farmers' Home Journal, says:

"McCray Bros., in the deal recently closed in which they sold Patty McDonald to D. Nym McCullough, of Atlanta, Ga., secured of that gentleman the high-class three-year-old saddle gelding, Chocolate Boy, the son of Highland Gay that will be remembered as the winner of second money to the All Peavine colt, now owned by W. C. Massie, of Paris."

"The youngster has a good trot, one could not well expect anything else as he is out of a daughter of Rex McDonald, while the Highland Gay's generally had a correct trot or pretty nearly one, and it has not been decided yet whether he will be used as a three-gaited gelding or gaited."

"McCray Bros. have a three-year-old filly by Bourbon King out of the dam of Marvelline, the first good horse that they ever showed, that is considered quite a crack, though her education was begun so late that she may not be seen until the late fairs if at all, in 1914."

"The first foal to arrive at the farm of E. K. Thomas & Son, at North Middletown, is a bay colt by Bourbon King, out of Selina, by Bourbon Chief. Selina is one of their most highly-prized mares and she has crossed especially well to Bourbon King, as among her produce are Graceful Queen, now owned by McCray Bros., and Caywood and Grand Monarch, still the property of the Messrs. Thomas."

"Graceful Queen is now a four-year-old and was campaigned successfully the past season by Robert McCray in the three-year-old saddle, harness and championships."

"Grand Monarch is now but two but was shown a few times the past season, winning third in the National Saddle Horse Futurity when the verdict of a good percentage placed him higher in the score."

"This is the first bay colt that she has produced, all the previous males having been chestnuts."

One Day Only

KINDLY CALL AT

Twin Bros. Department Store,

Seventh and Main Sts., Paris, Ky.

Every time we read "Maud Muller," we wonder why the fool Judge didn't get her telephone number and explain matters over the phone.

Niagara Falls, Yellowstone Park and the Panama Canal are not such wonderful sights after you have had a rear view of a fat girl sitting on one of the dinky stools with the small round tops that you find around a soda fountain.

Experiments show that while birds will consume more feed when fed three meals a day, they will make a more efficient use of food if fed only twice.

Keep the floor of the houses so covered with soft material, such as straw, etc., as to make it impossible for the birds to wear the toes down to the quick in scratching.

THEATRICAL.

Columbia Theatre Today.

"The Thief and the Book" is a clever story of a thief of tender years, who commits a theft and is forced to flee. Later he became interested in electricity and his rise is rapid. There is a clever love story carried along through the picture.

Another reel will be shown, entitled "The Plumber and Percy."

The Columbia Tomorrow.

Ruy Blas, (after the play by Victor Hugo), complete in three reels, with William Garwood, Francella Billington, and a notable Majestic cast. The scene is laid in Madrid at the Spanish Court at the close of the seventeenth century. Victor Hugo, as he himself states in his preface to the play, intended it to be in a measure symbolic of those troublesome times when the throne was held by a weakling, a defective, the last of a long line of degenerate rulers, and the kingdom itself was a prey to the caprice of the nobles. The three leading male characters Victor Hugo meant to personify three contending forces in the tottering kingdom.

CORNERSTONE OF CARLISLE MASONIC TEMPLE LAID.

Hundreds of Masons and people from over Central Kentucky were in Carlisle yesterday to attend the ceremonies of the laying of the cornerstone of the Masonic Temple of Carlisle. A monster parade formed at the city school building of school children, headed by a band and Carlisle Templars, in full dress uniform. After the parade reached the building on Locust street the cornerstone was laid by Past Grand Master Sam V. Leach, of that city. The principal oration was delivered by the Rev. J. T. Sharrard, of Paris.

VALUABLE PROPERTY AT PUBLIC AUCTION

The lot at the corner of Main and Fifteenth streets will be sold at auction on Wednesday, May 6, at 2:30 p. m.

This is the most desirable suburban business corner in Paris, and is an ideal location for two up-to-date store rooms with flats above. Business rooms if erected on this lot, can be leased for long terms to responsible business men without any trouble. See Harris & Speakes, agents, and talk it over with them.

Attend the sale and get a prize. The terms of sale are easy. (28-td)

NEWS OF MILLERSBURG

—Regular meeting of Amity Lodge No. 40, F. & A. M. tonight.

—Dr. W. G. Dailey was at Mt. Vernon Thursday and Friday professionally.

—Dr. W. M. Miller and family will leave Thursday for a visit to relatives at Atlanta, Ga.

—Miss Louise Myall attended the State Christian Endeavor Union at Louisville, Friday and Saturday.

—See the next issue of the News for the complete schedule of the M. F. C. commencement exercises.

—Dr. and Mrs. W. V. Huffman returned Friday after a several weeks' visit to friends at Mississippi.

—Quite a number from here attended the laying of the cornerstone of the new Masonic Temple at Carlisle Monday.

—Dr. C. B. Smith left yesterday for a ten days' trip to Baltimore, where he will take a special course at John Hopkins University.

—Miss Woodward, of Eastern Kentucky Normal School at Richmond, was the guest of Mrs. C. C. Chanslor from Friday until Monday.

—Misses Stella Stirman and Gertrude Patrick will give their graduation recital in piano at the M. F. C. Saturday at 8 p. m. All friends are invited.

—Some days ago a medal was offered at the M. F. C. in the History Class for the best paper in a debate, the subject of which was "Resolved, That President Wilson Would Not Be Justifiable in Declaring War Against Mexico." The medal was won by Miss Fay McWhorters, who was of the affirmative. Miss McWhorters is one of our brightest young ladies, and the lines are already beginning to fall with her in pleasant places.

—Mr. Summers, of the American Lyceum Bureau, of St. Louis, Mo., is here for the purpose of organizing a Chautauqua Circle. The plans are about completed, and Millersburg will enjoy seven days Chautauqua about the middle of July. Everyone is enthusiastic, and every effort will be put forth to make it a pronounced success. A meeting of the stockholders will be called in a few days at which time the necessary officers will be elected.

—The petition to prevent fowls from running at large in the streets will be presented to the City Council Wednesday evening. There are some who are laboring under the impression that it is a petition to prohibit the raising and owning of fowls within the city limits. This is not the truth. It only provides against fowls running at large on the street or encroaching upon the property of others. Remember the garden and flower season is now on, and if you do

not want to be annoyed with other people's chickens, sign this petition. You have two days to do this in. You can do this by calling at the Exchange Bank and seeing Mr. R. M. Caldwell, who has the original copy of the petition.

—Sunday School Day in Millersburg was well observed, and in most of the Sunday schools there was a decided increase. There were 198 present at the Christian Sunday school, there being 72 visitors 123 at the Methodist church, with 50 visitors, 104 at the Presbyterian church, with 4 visitors, 42 at the Baptist church. The Baptist Sunday school stood up better than any of them in the Sunday schools, considering the numbers. The church has a membership of 56, an enrollment in the Sunday school of 42, average attendance 25.

—Miss Annette Hurst, who has just completed her course in elocution under Mrs. C. M. Best, of the M. M. I., auditorium Saturday evening.

The spacious auditorium, with a capacity of about 1,000, was comfortably filled. Miss Hurst was at her best.

She has proven an untiring, energetic pupil. She has taken a four years course in two years, beginning the course last year with two lessons a week, and this year has taken six lessons a week. Her numbers were all well selected and were equally well executed, as all of the work is when prepared by Mrs. Best. Miss Hurst is now ready and will enter the Philadelphia School of Elocution next fall. This and the Boston School of Elocution are two of the most thorough institutions of their kind in this country. The musical program, which was made up of a select orchestra, with piano, violin and vocal solos, was very good. At the close of the program Mrs. C. M. Best delivered a short address outlining the work done by Miss Hurst and Miss Martha Smith, also delivering an interesting talk on elocution and its specialties, defining the difference between them, which should prove very helpful to some of the young ladies and their mothers, who are always wanting new pieces, often times before they are qualified for the same. Mrs. Best's work as presented to the public shows up to the very best advantage.

MATRIMONIAL.

—A marriage license was issued yesterday by CCounty Clerk Pearce Paton to Mr. Elzie Berry and Miss Nellie May Sanders.

—A message received in this city yesterday by Mrs. Alice Sweeney announced the marriage of her son, Dr. John Sweeney, of Chicago, Ill., to Miss Margaret Reynolds, of Memphis, Tenn. The wedding occurred yesterday in New York.

Dr. Sweeney, who is one of the leading physicians of Chicago, has for a number of years been house physician at the Palmer House in Chicago. His bride is a member of one of the most prominent of Memphis families and is a favorite in society.

After an extended wedding tour, Dr. and Mrs. Sweeney will return to Chicago to reside.

DEATHS.

—Relatives in this city yesterday received the information of the death of Mrs. Mollie Downey Stockton, which occurred yesterday morning at her home in Richmond, following a protracted illness. She is well known in Paris and is an aunt of Messrs. Ben and Emory Downey, of this city. The funeral will take place this afternoon at 3 o'clock.

FORMER KENTUCKY EDUCATOR ATTEND THE LOT SALE ON MAIN STREET

RECEIVES SIGNAL HONOR.

Friends of Dr. Lindsay Blaney, of Houston, Texas, in this city, will be pleased to learn that he has been appointed a Kahn Fellow, and will in a few weeks leave with Mrs. Blaney for a trip around the world, which will occupy about fifteen months. A rich Frenchman has put aside a large sum of money to enable educators to travel. Dr. Blaney was signally honored by being one of two Americans chosen to be given trip around the world. The itinerary will circle the globe and Europe, Asia and Africa will be visited. Dr. Blaney will be remembered as having been the President of Center College, Danville, a position he held with marked distinction for a number of years. About two years ago he moved with his family to Houston, Texas, where he accepted a better position. His wife was formerly Miss Gertrude South, of Frankfort, and has frequently been a visitor in this city, on numerous occasions being the guest of her school mate, Mrs. Swift Champ.

Attend the public auction of five vacant lots on South Main Street. Two of these lots adjoin the Old Fair Grounds property, now owned by Mr. J. D. McClintock, and are sure to make you money. Attend the sale and get a prize. (28-td)

CHESTER PARK TO OPEN NEXT SUNDAY.

The regular season at Chester Park, Cincinnati's most popular pleasure resort will open with a swing and a whirl next Sunday. All the many amusement features are in tip-top order for the event. The best available vaudeville talent has been booked for the free vaudeville show which will be a permanent summer feature. There will be two shows daily, the curtain rising promptly at 3 and 8:15 p. m.

The bill which will open the regular season consists of five first-class acts. Helen Dickson and the Rambler Sisters, popular comedians, promise a clever singing and dancing novelty. Jerome and Berry, who call themselves ragtime equilibristas, are not only acrobats of exceptional skill and daring, but are comedians who promise an average of sixty laughs to the minute. The LaTours have an act full of funny capers and novelties in which they feature "The Original Bubble Girl." Belle Oliver has well merited the title "The Tetrizinni of Rag-Time." Amedio, the wizard of the accordion, will offer something pleasing and novel in the way of instrumental music. This strong bill is typical of the excellent vaudeville to which patrons of Chester will find themselves entitled.

Smittie's military band will render free concerts in the afternoon and evening. Some new voices of high quality will be heard in the cabaret which is a feature at the club house. Motion pictures showing the latest local events of interest are another of the many free attractions. The lake with its made-to-order ocean waves, will prove alluring to both bathers and oarsmen. On the day preceding the formal opening, the park will be in full swing for preliminary inspection. The Norwood Degree Team, Modern Woodmen of America, will take advantage of the opportunity to hold its annual outing. A striking feature of the evening will be the battle of the flowers at the cabaret. Each lady will be presented with a bouquet of carnations and at a specified time during the evening, they will throw flowers at each other while lights of varied hues will be played upon the scene.

BOURBON COURT IS DULLEST FOR PAST SEVERAL MONTHS

County Court day was the dullest in many months. The crowd was very small and the rain had the effect of reducing the amount of business usually transacted. The stock markets were without any special features, no cattle of any consequence or work stock being offered. There were but three mules on the market and one of these was purchased from James Caldwell by the firm of Caywood & McClintock.

The combination sale held each court day at the stock yards of M. J. Murphy & Co. attracted a small crowd and there was little bidding on the offerings. Eight head of cattle passed under the hammer at prices ranging from \$50 to \$90 per head, and a few ponies were sold at prices ranging from \$40 to \$90 per head. Owing to the small crowd a large amount of the consignment to the sale was not offered.

CITY PROPERTY AT AUCTION.

A beautiful home and two nice building lots will be sold May 7, at 2 p. m., on Cypress street, the property of Mr. G. C. Thompson. No better home or building lots will be on the market for a long time. (1-2t)

BOYS FIGHT DUEL OVER OWNERSHIP OF DOG.

Near Pine Knot, Ky., Thomas Smith, seventeen-year-old son of Joe Smith, is dead with a bullet hole through his heart and Dewey Gilreath, was shot through the lungs and spine, is a helpless paralytic and not expected to live. The two boys, who were both armed, met in the road and quarreling over the ownership of a worthless dog, drew their pistols and began a desperate duel with the tragic result above narrated.

ROOM-SIZE DRUGGET TO BE GIVEN AWAY.

See the room-size Brussels drugget in J. T. Hinton Company's window. To be given away at the auction sale of Main street lots on Wednesday, May 6, at 2:30 p. m. Other prizes will also be given away at this sale. (td)
